Business Segments

Our ambition and desire to find solutions, deliver results and integral part of business segments that enable us to bring value to communities and help emerging economies to grow.

Infrastructure development, power and energy, telecommunication, agriculture, information technology, tourism, pharmaceutical are the foundation of a country. These pillars have a continuous connection on the improvement of the country and the nation's citizens. Also, it is directly connected to faster economic growth and alleviation of deficiency in the country.

However, they entail many challenges and obstacles to overcome. GreenWin Holdings possess excellent problem-solving skills, strategic project planning, research & development, stewardship honed during years of experience of date.

Besides Green Win's ambition and desire is to find solutions, deliver results and integral part of business segments that enable us to bring value to communities and help emerging economies to grow.

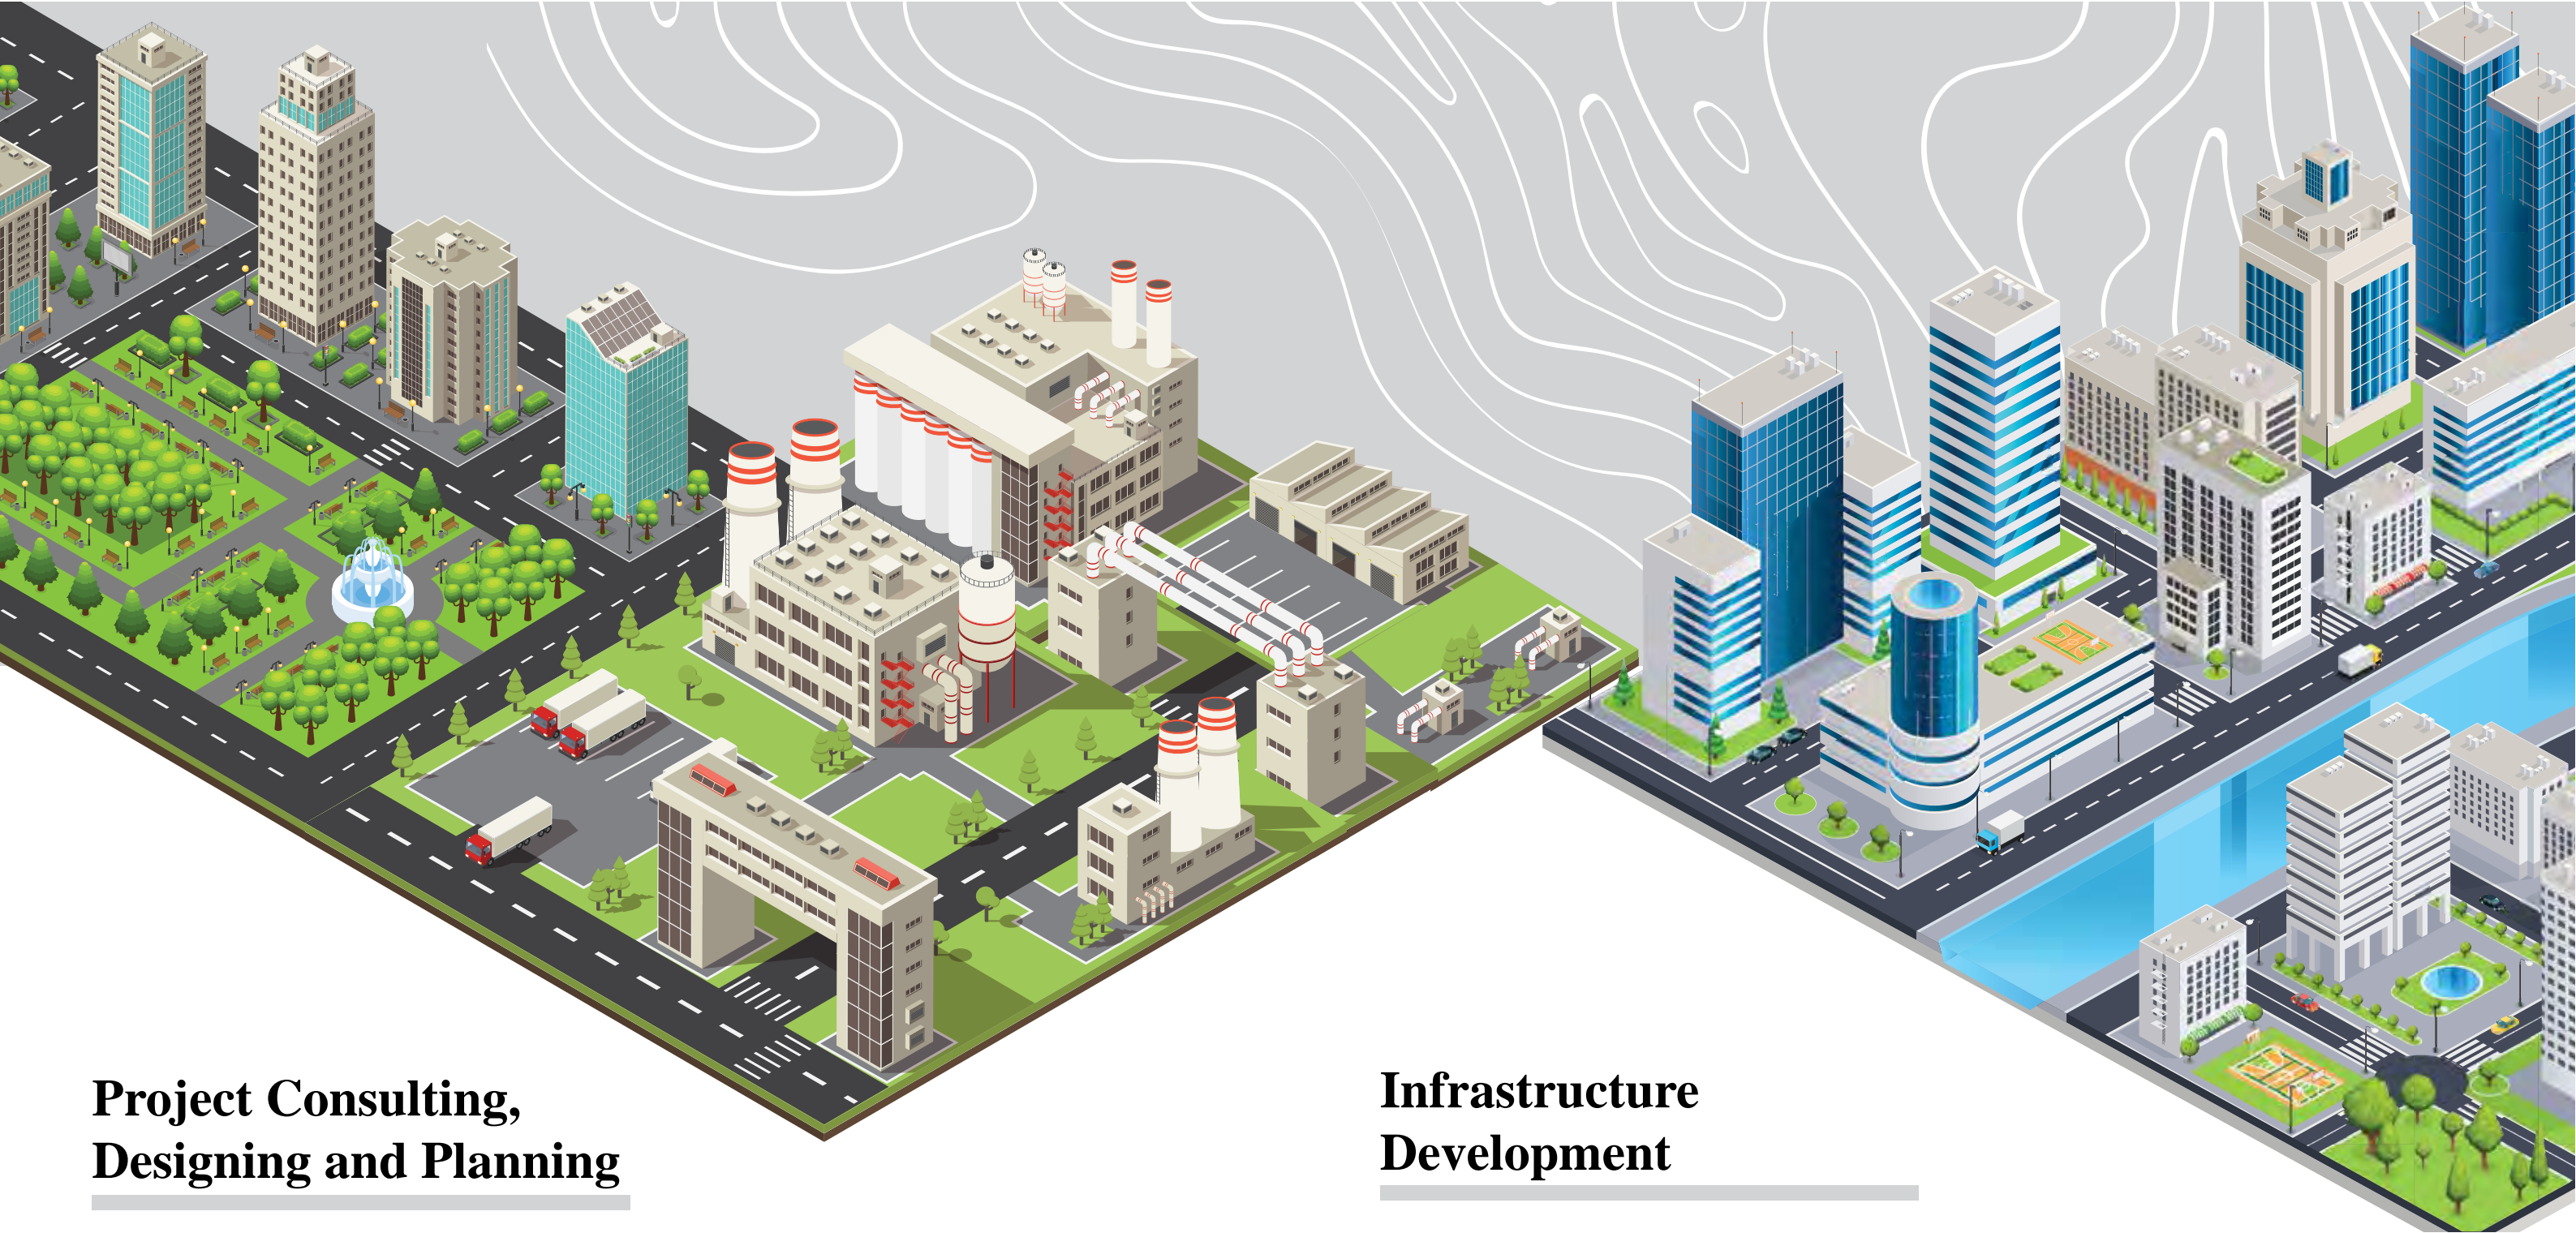

Power and Energy

Developing And Energizing The Future With Bright

We are the leading emergency power supplier to the Ceylon Electricity Board with the capacity of 104MW. Currently, we are operating in 4 power plants in Sri Lanka.

Furthermore, we are awarded to expand the capacity of our operations. With that, Green Win will be operated in another 4 plants across the island to generate 96MW capacity.

Engage in providing green energy solutions in Sri Lanka in collaboration with our foreign associates. Sustainable energy authority of Sri Lanka has authorized our company to source funding globally for its future development activities in the renewable energy sector in Sri Lanka

Project Consulting, Designing and Planning

A Clear Vision Is Backed By A Definite Plan

We engage in providing advisory services, consulting, designing, and planning for EPC projects.

Infrastructure Development

We Serve To Emerge

We undertake supplying and other projects in road, building and other constructions, railway, real estate developments and water supply sectors in collaboration with our foreign partners.

Presently we are in the process of negotiation with the Government of Sri Lanka and many Sri Lankan long-standing and well-established corporate entities for long term strategic partnerships in other infrastructure development fields.

Information Technology

We Commit To A Future Worth Looking Forward To

Developing and maintaining Software, digital and IT related solutions. Green Win Holdings specializes in business development and project management, across a diverse portfolio of organizations spanning several industries.

The organization was initiated with the view of catering to Sri Lanka's rapidly growing digital landscape and is today counted among the foremost enterprises in the field. Green Win's information technology division has the technical knowhow, international partnerships and local expertise to offer organizations more effective, reliable and technologically advanced solutions.

With information technology domain Green Win is planning to make a marketplace for new business ideas. And numerous other strategic initiatives designed to deliver economic progress. The organization's proactive approach and cutting-edge solutions have allowed Green Win Holding to develop a close relationship with several leading organization, which in turn has enabled these businesses to transform themselves so as to improve their capacity, capability, profitability and overall potential.

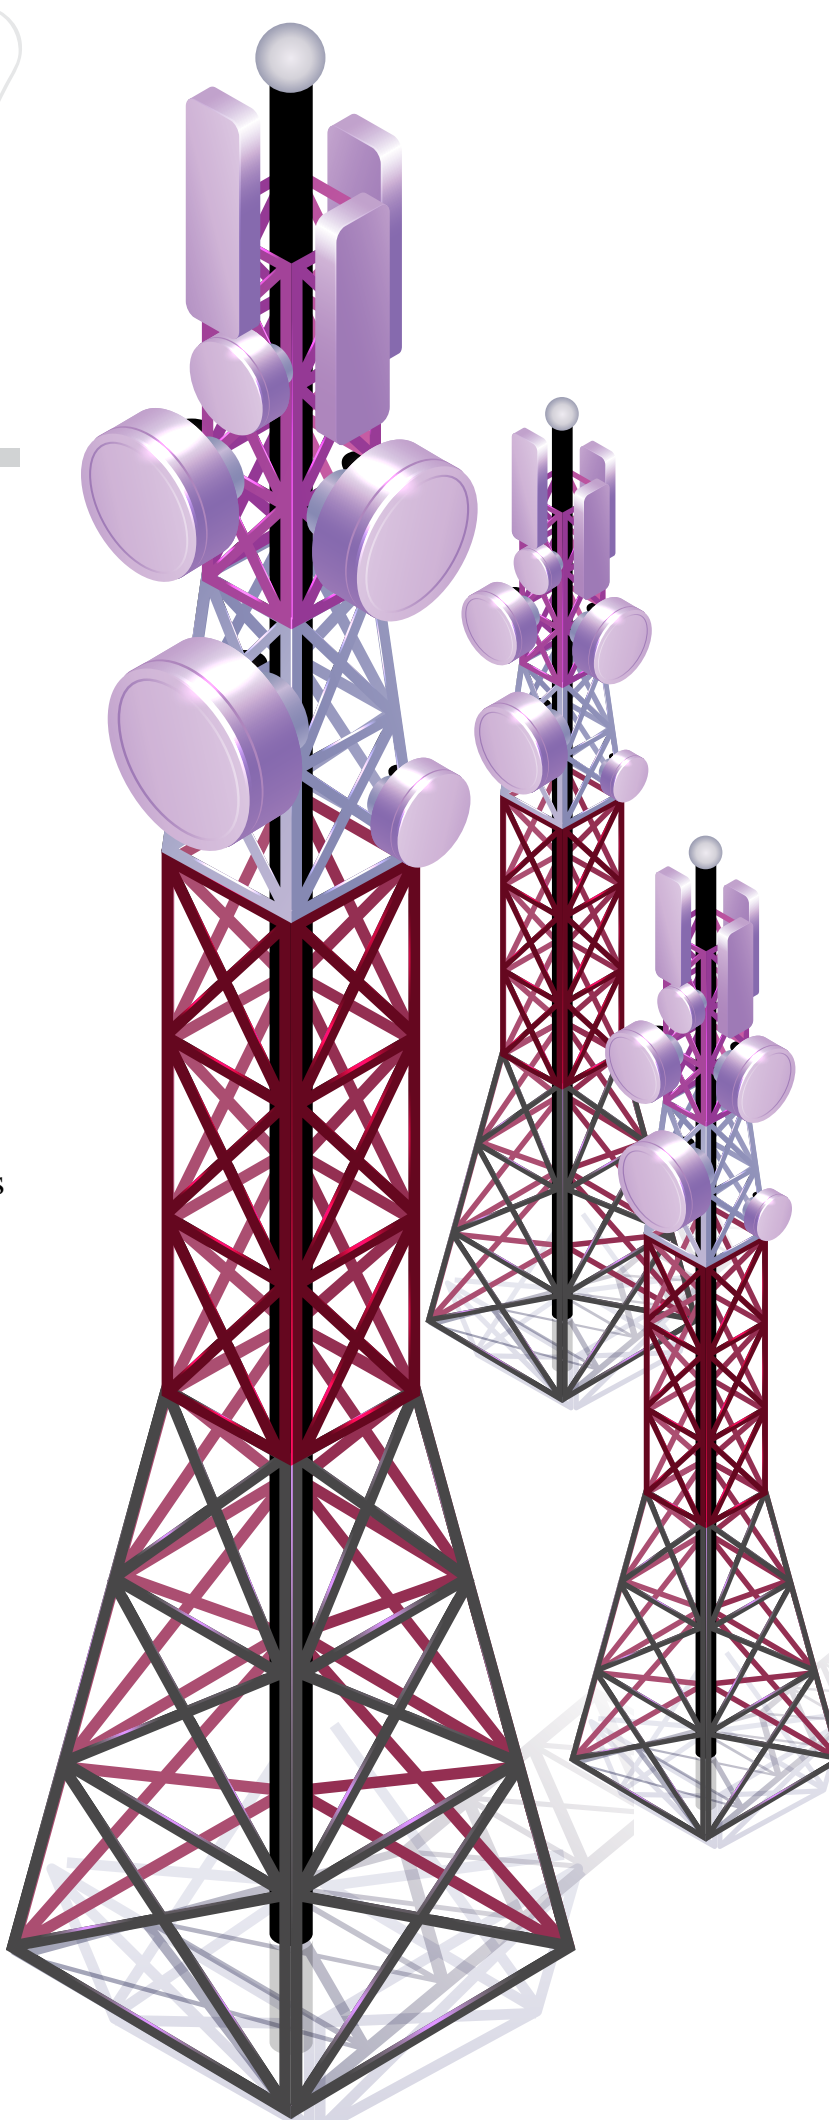

Telecommunication

We Support Connections To Build Partnerships

The importance of telecommunication in our society has been experienced by one and all. It also has a strong effect on our economic activities. Telecommunication is important for healthcare, transportation, innovation, agriculture, administration and education and many more.

By having an impact on all spheres of life, telecommunication helps bring big changes in the world. This is in fact why the world is being able to develop and grow at such great pace. Telecommunication offers us not only better social awareness but also a better life at large. As telecommunication keeps on progressing, keeps on growing, human life will also progress, grow, and become a lot easier, a lot better.

At Green Win we are providing SME solutions partnering with Sri Lanka Telecom PLC / SLT being one of the long-term strategic partners of SLT. Sri Lanka Telecom being the national communication provider, has taken these novel steps together with GreenWin to provide more robust and uninterrupted connections to the community.

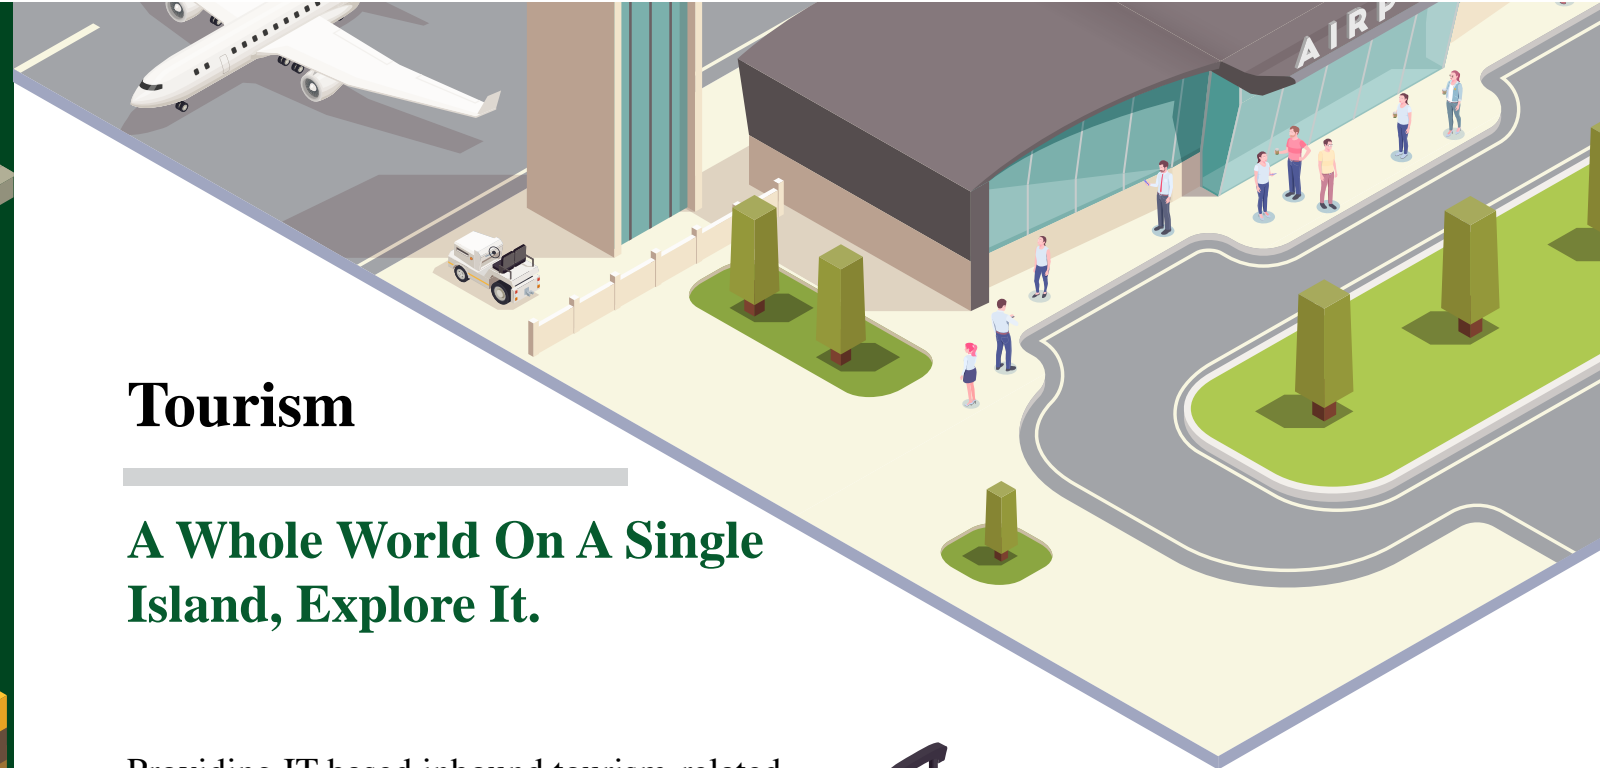

Agriculture

**Imagine the Farming,
Imagine Living.
Redefining Agri Living.**

Agriculture and farming with our foreign collaborations. Our company has been selected as the project consultants and investment facilitation partner of Industrial development authority of the north-central province of Sri Lankan government.

Tourism

**A Whole World On A Single
Island, Explore It.**
